

GOAL 17: PARTNERSHIP FOR GOALS

17 PARTNERSHIPS FOR THE GOALS

Strengthen the means of implementation and revitalize the global partnership for sustainable development

PURPOSE

Support young people to take action on issues they care about.

AIMS

To connect all 17 goals and consolidate understanding and awareness of:

- Standing up for justice and equity
- Global interdependence
- Sustainable way of living
- Respecting diversity and identity
- Conflict resolution and cooperation

GET ACTIVE!

Step 1: Choose an issue and an organisation.

Step 2: Look at the organisation's website and see if they have existing projects that you can join in with: beach cleaning, mobile phone recycling, garden clean ups, etc.

Step 3: Write an email to the organisation with your section to let them know you want to join their initiative, or get help from them to set up a new one.

Step 4: Plan the project with your young people. Make sure they get to take part in making the decisions about how the project will work, and what they will do to take part in it.

Step 5: Carry out the project over 2-3 months/3-6 sessions

Step 6: Have a meeting night at the end of the project where you celebrate what you've achieved. Invite someone from the organisation or who has benefited directly from the project to talk about the impact it had. Get the young people to talk about what they enjoyed and learned, and what they might do differently another time.

Step 7: Promote your project by making a video, writing an article, or giving a presentation.

SUMMARY

Summary

GOAL 17

We need everyone to come together – governments, civil society, scientists, academia and the private sector – to achieve the 17 Sustainable Development Goals.

The agenda is universal and calls for action by all countries, both developed countries and developing countries, to ensure no one is left behind. Strengthen the means of implementation and revitalise the global partnership for sustainable development.

TARGETS

- Help ensure all countries have met these goals by 2030. The SDGs should be present in national plans and each State will decide which issues are most pressing in their country.
- Ensure each State allocates its own resources to achieve the SDGs. In addition, developed countries should commit to supporting achievement of the goals in less developed countries.

- Respect countries' policy decisions, provided they are consistent. For example, you cannot create rules for the protection of natural resources, and give permission for their exploitation at the same time.
- Engage with the organisations and individuals who have been working for many years on the various topics related to the SDGs. Involve them in the process of achieving the goals.
- Ensure States improve their data and statistics management to be able to assess their progress towards the achievement of the goals.

ACTIVITY

This is a longer activity which will take place over a series of evenings where the young people work towards selecting and taking action on issues that they care about.

ALL 17 GOALS - NOW YOU'RE DONE!
